## Tips for Protecting Yourself from Crime

Nowadays, more and more people are getting involved in criminal activities through SNS scams that go something like this: "Easy and money making part-time job is available!"

When you see such a post on any SNS platform, please be reminded that the following activities are *illegal*.

Selling, buying, giving or receiving bankbook and/or cash card to someone else

(The same goes for cryptocurrencies.)

If you have a bank account that is no longer being used or will be no use for reasons such as you will go back to your country

> please make sure to close your bank account to prevent it from being used for criminal purposes.
