

~Tips to protect yourself from natural disasters~

[Japan Meteorological Agency<<http://www.jma.go.jp/>>]

① Earthquake Readiness ~Remain calm, and secure your personal safety ~

you have only a matter of seconds before strong tremors arrive

You need to act quickly to protect yourself!

- ◎ Remain calm, and secure your personal safety!
- ◎ Call the attention of those around you .
Prepare to respond appropriately in line with your situation based on image training and practice.
If you feel a tremor, take early action even if no EEW!

If you see/hear an EEW...
(Earthquake Early Warning)

Fix furniture to prepare for earthquakes.

👉 《Tsunami Readiness》

- ★ Rapid evacuation is necessary to save the life from tsunamis.
- Leave coastal areas immediately and evacuate to a safe place if strong shaking or weak but long-lasting slow shaking is felt.
- If you evacuate from tsunami, never think it's safe here and keep retreating to higher grounds.

- ① Evacuate on your own judgement.
- ② Evacuation area is not 「farther」 but 「higher」.
- ③ Take the lead to be a first evacuee.
- ※ There is no shame in evacuating first!

② Heavy Rain Readiness ~Pay attention to the latest bulletins and follow municipal evacuation advisories~

《Preparation for a natural disaster》

- ① Outside the house
 - Close all windows and reinforce it as needed.
 - Fix or move anything that might get blown away .
- ② The inside of a house
 - Check and keep an emergency kit.
 - Fix prevention film of glass splash(or a curtain) windows.
 - Have a store of water .
- ③ Preparation for evacuation
 - Check evacuation routes and centers constantly.
 - Plan post-disaster meet-up points and communications with family members.

《To prevent from being the sufferers》

- ① Pay attention to the latest bulletins
 - Get the latest weather bulletins from JMA's website.
 - Monitor weather bulletins on TV, radio and mobile phone.
- ② Be aware of hazardous places
 - Keep away from the flooded river, gutters and mountain area where are about to crumble. (Going to see fields is also danger to you.)
 - Don't pass flooded places by car.
- ③ Take early action
 - Pay attention to evacuation orders/advisories, and start voluntary and early evacuation as needed.
 - If it is dangerous to go outside, evacuate to a safer room.

If you need a help when natural disasters occur...

"don't panic, don't hurry and dial 110"

If you feel that "something's strange" dial **110!!**

If you see the person(object) who(which)

- wear (have) clothe (bags) unsuitable for the occasion
- observe surroundings unnaturally
- the identity or characteristic of something ,being unclear or unknown

please dial 110.
